Take this every day to supplement a lack of vegetables in your diet !!

Maintain health and beauty with added fish collagen.

Lacking in proteins?

The true beauty of barley is found in the leaves the young green shoots of power that form before the grain. The young leaves have a tremendous ability to absorb nutrients from the soil. They contain all the vitamins, minerals, and proteins necessary for the human diet, plus chlorophyll. These necessities are easily assimilated throughout the digestive tract, giving our body instant access to vital nutrients. Aojiru barley powder compound with honey and fish collagen.

Domestically produced for peace of mind

The barley grass, which is the main ingredient, is domestically produced and contains even more minerals, vitamin-B1, vitamin-C and carotene. Moreover, this aojiru vegetable drink can be enjoyed with peace of mind as it contains carefully selected domestically-produced ingredients including Angelica keiskei and organic mulberry leaf and kale powders.

Delicious either hot or cold

The powder is soluble in water so you can enjoy it cold in the summer and hot in the winter. It can also be enjoyed mixed with milk.

Add this to your everyday health regime Increase in beauty effects

The collagen contained in "Young Barley Grass Aojiru Juice" is fish collagen with fine particles that are absorbed easily by the skin and no aftertaste. Add this to your everyday health regime and see the beauty effects.
